

## **Steph Baldwin Technical Projects Manager at Royal Albert Hall**

London, Greater London, United Kingdom

Summary Experienced Technical Project Manager with a demonstrated history of working in the entertainment industry.

Skilled in Production Management, Theatre, Technical Management, Lighting, and Live Events. Strong program and project management professional with a City and Guilds 2330 Level 2 focused in Electrical Installation, Foundation degree in Theatre Production, and Prince 2 in Project Management.

I started life working in theatres on the south coast. Once I left full time education, I undertook various work placements before working freelance in events. I joined the team at the Royal Albert Hall in 2009, starting of as maintenance technician, eventually becoming one of the Technical Managers in the main auditorium. I moved into project management a few years ago, delivering new installations and upgrades to existing technical systems.

Notable projects include the ongoing replacement of houselights from halogen to LED, and the installation of a new Audio system.

Highlight events include the BBC Proms, Kylie Minogue, Skyfall Royal World Premiere, and Eric Clapton.
