

Progression

Students use the qualification to go onto higher levels of study; past students have progressed onto Level 3 courses, BA Interior Design at Portsmouth University and BA Fine Art here at Northbrook MET.

Others have used the qualification to gain employment within Interior Design Practice, Bathroom Designers, Kitchen Designers, national magazines such as House and Garden, In house Interior Services including Laura Ashley and other retailers. Students have been appointed as Manager at Suzie Watson Designs in Chichester, worked with Interior designer Angela Cheung in Henfield, secured positions as junior designers in bathroom design companies in Hove and Burgess Hill Screen Shot 2020-06-04 at 11.54.

A range of self-employed or independent business owners have improved or extended the service they offer to clients and with experience and self-confidence, you may feel able to set up a business to offer your own Interior Design Service.

Many students are also delighted to extend their skills for their own personal use and development that may also lead to further courses of formal or informal study, or in recognising their transferable skills, change direction to work in more 'creative' roles.

Enrichment

In September 2019, students visited 100%Design London at Olympia - the international trade show, exhibiting new and contemporary design for residential and commercial projects.

Sadly lock down occurred just as we were about to visit Design Centre Chelsea Harbour for London Spring Design week and the new interiors collections, but hoping very much to be back in 2021.

If you would like more information please contact the course leader Debbie Bailey: Debbie.bailey@gbmc.ac.uk or the admissions team on 0845 155 6060
