

Harriet Porter

I chose to enrol on the C&G Level 2 Interior Design because I'm very creative and simply loved interiors.

I had minimal experience in this industry and wanted to learn more whilst working a full time job.

During my time on this course I have learnt vital areas of design that I wouldn't have considered before, developed skills in line drawing to create accurate and gorgeous elevations and how to undertake a design project from start to finish.

Debbie's evening classes have been a joy to attend with so much knowledge shared from herself and other students.
